

aXtion Go for iPhone 12

Military-grade certified, lightweight, water-resistant, rugged case with belt clip harness and kickstand featuring MagSafe compatibility

SKU: CPA304H
MSRP: \$69.99

The aXtion Go for iPhone 12 is a trusted solution to protect a workforce's phone investment. It is designed to protect the device from accidental drops and inclement weather like rain or dust storms. This case boasts MIL-STD0-810H certification and has extra layers of shock protection. The silicone shock absorbers within the frame of the case do their job of absorbing shock waves before they reach the iPhone. Expanding on that protection, the case's corners have a reinforced design to absorb and disperse shock. In addition to these robust protective features, the case also has a screen protector, front and back camera lens covers, and button and port covers. Other protective features include raised edges around the screen and cameras to add extra screen protection, and textured edges around the case to provide extra grip.

The case includes a holder which features a rotating belt clip and slide out kickstand. The holster works to secure and protect the device while it is not in use, and positions it for easy viewing when it is. For seamless charging, the case is compatible with MagSafe and Qi wireless charging.

- Compatible with iPhone 12
- Shockproof with MIL-STD-810H certification
- Reinforced corners to absorb and divert shock
- Compatible with Apple's MagSafe and Qi wireless charging
