

20mm Ball Joint AMPS Mount Bracket for Tablets

Square Plate with AMPs Hole Pattern

SKU: MKP126
MSRP: \$19.99

AMPs universal drill-pattern compatible. Ready to be used on any of our MagConnect mounts by simply removing the MagConnect adapter and replacing it with this AMPs plate.

This bracket comes standard with an AMPS drill pattern and a 0.79" (20mm) ball joint. It is compatible with our carbon fiber mounts that accommodate a 0.79" ball joint. This bracket can be placed at the base of the mount arm to allow it to be fixed to a surface or it can be utilized to position a telecom device by placing the bracket at the top of the mount arm. The ball joint allows for almost infinite adjustment so you can position your device exactly where you need it.

- Compatible with any Carbon Fiber Mount
- AMPs drill pattern 1.188" x 1.813" (30.17mm x 46.05mm)
- 20mm ball joint
- Constructed out of strong and lightweight aluminum alloy for increased longevity and durability
- Works with any device that utilizes the AMPS pattern including, but not limited to, HAM Radios, GPS Systems, Satellite Radios
