

MagConnect HD AMPs Mount (26mm)

Quick connect tablet mount featuring a heavy-duty universal AMPs base for high vibration environments

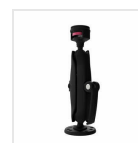

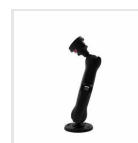

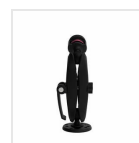

SKU: MMU232

MSRP: \$99.99

The MagConnect HD AMPs (26mm) Mount is a multifaceted mounting solution that can be used to position a tablet in virtually any emergency response vehicle. The mount features a robust drill down universal AMPs base that easily attaches to solid surfaces. This vibration dampening mount is ideal for on-the-go users as the tablet magnetically mounts and dismounts.

The body of the mount features cable management and a robust, corrosion-resistant mount arm that can be adjusted to reach the optimum viewing and operating angle. It features two rubber coated ball joints which provide vibration and shock reduction. To keep the device in place the robust arm and rubber coated ball joints provide an increased holding strength. The body of the mount has a slim profile to allow it to fit in tight spaces and features a lever which modifies the force put onto its joints. For public environments that require theft prevention, an optional security feature is available.

- Compatible with all cases and enclosure featuring MagConnect compatibility
- Drill down base has an AMPs 30x38mm pattern for universal compatibility
- Certified vibration and shock resistant MIL-STD-810G 514.7
- Built with two 26mm spherical rubber coated ball joints to provide maximum holding strength
- Made with corrosion-resistant material making it ideal for mixed element environments
- Features cable management, 360 degree rotation, shock and vibration resistance, and near infinite adjustability
- Mount features two 26mm ball joints for increased hold capacity
- Optional locking lever for usage in public spaces

BENEFITS

- Configurable
- Expand Usability
- Ease of Use
- High Quality
- Ergonomic
- Increase Productivity
